Cages

Standard Filter is a supplier of dust collector cages as well as filter bags. We provide a wide range of configurations to best fulfill your needs. Cage constructions, consist of 10, 12 or 20 vertical wires.

The horizontal ring spacing on the cage can be 4", 6" or 8".

If plenum height restrictions are a problem, two piece cages are available.

For areas where moisture or acid corrosion are present

Standard Filter provides a range of materials.

Materials

Carbon Steel
Galvanized Steel
304 Stainless Steel
316 Stainless Steel

Finishes

Epoxy:
(250° - 350° F .
service temperature)

Packaging

Cages are packed in custom
designed cartons.
All cartons are rated
at 275 pound test.

Top load cages are available with a T-flange, ring top or several styles of rolled flange tops. Cage diameters range from 4" to 6 1/8". Wire thickness ranges are; 9 gauge, 10 gauge and 11 gauge.

Bottom load cages are constructed with a split collar or split ring top. Cage diameters range from 4" to 6 1/8". Wire thickness ranges are 9 gauge, 10 gauge and 11 gauge.

For more efficient cleaning, venturis are available for all diameter cages. Venturis come in 3" to 6" lengths. Venturis are made in a variety of materials; aluminum, carbon steel, galvanized and stainless steel.

Standard Filter also supplies oval cages, please call for details.

If you have special cage requirements call **Standard Filter**.
In most cases we can customize a cage to fulfill your needs.
